

Learning Disability Reference Group

Susan Hanley welcomed everyone to the meeting and went through the housekeeping.

Alan Hicks then read out the report about what the Partnership Board have done in their last 2 meetings.

Sheena Kelly from the Partnership Foundation Trust came back to tell us about the changes they had made to some symbols that they had shown us at the last meeting.

They had listened to what we had said about the symbols and made the changes we suggested. We told Sheena that we liked the changes they had made.

Report from a meeting 9th February 2010

We then had a presentation from Change about the Cancer project they are working on.

They told us some information about cancer and about the work they are doing to make information about cancer accessible.

The Leeds Teaching Hospitals Trust wanted to ask our opinion on a PALS leaflet so we had a look at that and worked in groups to talk about what we thought about it.

Each group fed back to the meeting what they thought and all comments were sent on to Allison Johnson at the Leeds Teaching Hospitals Trust.

Lisa Keenan told us a bit about her new job as Joint Commissioning Support Manager.

We then had lunch after a morning of hard work!

After lunch, Change did a quiz called 'Our Health Needs'.

We were asked questions about health and how to stay healthy and we had coloured cards to vote for our answers. Change will put all this information together and give it to the Primary Care Trust who asked them to do that work.

After that, it was time to go home. We had a good meeting and everyone worked very hard.

The Asking You! Project supports the Learning Disability Reference Group.
